

## Our commitment

**Dacrylate Paints**  
High Performance Coating Solutions

**As part of our wider ambition to maximise use of resources, Dacrylate Paints commits to help create a sustainable circular economy for leftover decorative paint in the UK.**

We support the goals of the BCF's Resource Efficiency Action Plan for decorative paint:

- Stop the landfilling of over 20m litres of leftover decorative paint per year
- Help find new markets for remanufactured paint products
- Increase the reuse and remanufacturing of leftover decorative paint from 2% to 50%
- Facilitate a national network of paint collection and remanufacturing centres, bringing new job opportunities
- Work with local and national government, paint manufacturers, retailers, the waste industry and other stakeholders
- Maximise the use of valuable raw materials and resources
- Remove legislative barriers
